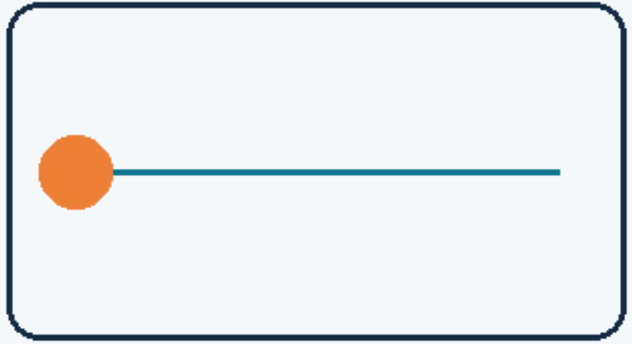
PDF PRESENTER / DEMO

Keep your notes beside your slides

Select Notes-right layout in the presenter.



The audience sees only this left half.

SPEAKER NOTES

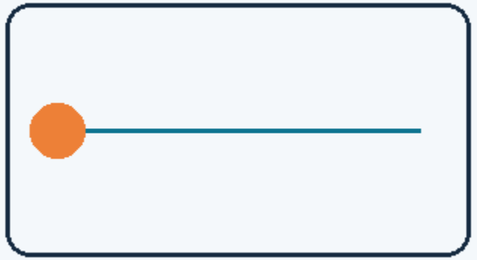
Introduce the demo

- Explain that the PDF stays on this device.
- Point out the animated orbit on the audience screen.
- Notes are in the original PDF; they are not secret.

PDF PRESENTER / DEMO

Independent animations

One attachment can appear on several slides.



SPEAKER NOTES

Try the presenter controls

- Advance and return with the keyboard.
- Resize either window to check alignment.
- Close and reopen the audience window.

PDF PRESENTER / DEMO

The whole presentation is a PDF

It still works in conventional PDF readers.

- Static images remain visible everywhere.
- The viewer recognizes versioned animation links.
- No service receives the document.

SPEAKER NOTES

Finish

Thank the audience. The final slide has no animation, so navigation also checks that earlier animations stop and their resources are released.
